

2017 QBS
Request for Statement of Interest (SOI)
Fabyan Parkway over the Fox River
Section Number 17-00479-00-BR

The Kane County Division of Transportation is in need of professional services from a qualified engineering firm to provide Phase I/II Engineering Design Services.

The attached ***Project Description*** provides a summary of major items that will be encountered.

At this time the County anticipates starting this work in early 2017 with a contract duration of approximately 24 months.

The Statement of Interest shall be submitted electronically via **KDOT QBS** no later than 2:00 pm on May 5, 2017 and should be addressed to Jennifer O'Connell, Senior Project Manager.

If you plan to enter into a joint venture with another firm for this project please note this on your Statement of Interest, including the name of the firm you are entering into a joint venture with for this project.

The short-listed firms will be posted on our Consultant Selection Summary Table website at <http://www.co.kane.il.us/dot/SOISummary.aspx>.

Firms interested in providing services to Kane County are hereby notified of the Kane County's Ethics Ordinance No. 10-206, in particular, Section 10, page 15. Only the firm that is ultimately selected for these professional services will be required to provide the Ethic Ordinance information directly to the Kane County Division of Transportation as part of the consultant services agreement. The complete Ethics Ordinance No. 10-206 document is available online at the following link [Kane County Ethics Ordinance](#).

A Statement of Interest (SOI) received after the above noted deadline will not be used as part of our consultant selection process.

Please refer to the following Description of Project Scope for more information on this project.

Fabyan Parkway over the Fox River

Project Description/Scope of Services:

This project consists of Phase I and Phase II type engineering design services for the rehabilitation of the Fabyan Parkway bridge over the Fox River in the city of Batavia, the oldest city in Kane County. The project will be designed and constructed with local funds. The services include:

- Detailed topographic surveys
- Inspections of existing bridge deficiencies including an infrared thermographic survey identifying areas of delamination and debonding
- Analysis and summary of recommended repairs with associated costs
- Engineering design for the selected repairs likely including:
 - replacement wearing surface
 - areas of full depth repair
 - joint repair
 - steel repair
 - median replacement
- Maintenance of traffic plan
- Application and acquisition of permits from regulatory agencies as required by the scope of improvements
