Firms interested in providing services to Kane County are hereby notified of the Kane County's Ethics Ordinance No. 10-206, in particular, Section 10, page 15. Only the firm that is ultimately selected for these professional services will be required to provide the Ethic Ordinance information directly to the Kane County Division of Transportation as part of the consultant services agreement. The complete Ethics Ordinance No. 10-206 document is available online at the following link [Kane County Ethics Ordinance](#).

**A Statement of Interest (SOI) received after the above noted deadline will not be used as part of our consultant selection process.**

Please refer to the following Project Description for more information on this project.

## **PROJECT DESCRIPTION**

The Kane County Division of Transportation is undertaking the design for improvements to the intersection of Fabyan Parkway and Route 31. The effort will include work to address geometric deficiencies as well as to increase capacity and storage at the intersection.

The initial phase of the work, the scope of work that will be considered under this request for statements of interest, will be a feasibility study to examine various alternatives for improvements to the existing intersection. These alternatives will be further defined within a subsequent phase I engineering study. The feasibility study will include extensive coordination such as with the Illinois Department of Transportation (due to Route 31), public outreach, and, external coordination regarding historical properties and 4f/6f considerations.

At the County's discretion, the selected consultant for the feasibility study may be retained for the following phase I and phase II design effort.

The feasibility, preliminary and final design will utilize the federal aid process. The project will be completed under applicable IDOT guidelines, including the BLR and BDE manuals, as well as KDOT standards.
